

CMPE-272 Assignment 1

Apache Spark Assignment

Project Group -14

Project Members: - Sucheta Mandal, Surendra Ramesh Yadav, Rushin Naik, Pranjai Jain

Use Case:Earthquake detection using USGS data

For this assignment we have chosen use case 'earthquake detection using USGS data'. For data analysis we have fetch csv data file from

<http://earthquake.usgs.gov/earthquakes/search/>

Afterwards, bar chart is made based on magnitude, depth, gap in time and depth error for each earthquake detection data.
